Dear Dr. Weichman,

Our October Coffee Break was a resounding success and generated much discussion and feedback. Thank you for the excellent presentation you gave about the internet and the life of teens.

The information you shared was well organized, comprehensive and was shared in a dynamic and stimulating manner. You brought a sensitivity and keen awareness to the issues that our youth are facing in today's multi media driven culture. Your observations and experiences with teens speak to the need for parents to educate themselves more about the realities of their teens' world. Thank you for opening our eyes and giving us a clearer picture.

We are grateful to have had the opportunity for you to share with us and we welcome you to future Coffee Breaks.

Yours truly,
