

The Pegasus School

building wings so bright minds can soar

October 22, 2007

To Whom It May Concern,

Dr. Jerry Weichman spoke at The Pegasus School's inaugural Women's Forum on October 10, 2007. The event was very well attended with participants ranging from preschool through eighth grade mothers. Although the age span was diverse in this group, Dr. Weichman covered topics of interest to everyone.

Dr. Weichman's presentation exceeded our expectations. He is a very dynamic speaker who sincerely connects with his audience. His topics ranged from discipline and self-esteem to drugs, alcohol and the Internet. Although many of us in attendance had heard speakers cover these areas before, Dr. Weichman's insights were refreshing and filled with applicable advice.

The parents at The Pegasus School were so impressed by Dr. Weichman's presentation that they have recommended he speak to our middle school and fathers' group. We can highly recommend him to anyone involved or working with children and adolescents.

Sincerely,

John Sullivan
Assistant Head of School
